Inspiration and detailed views

01

Product idea.

Free space with edge and corners.

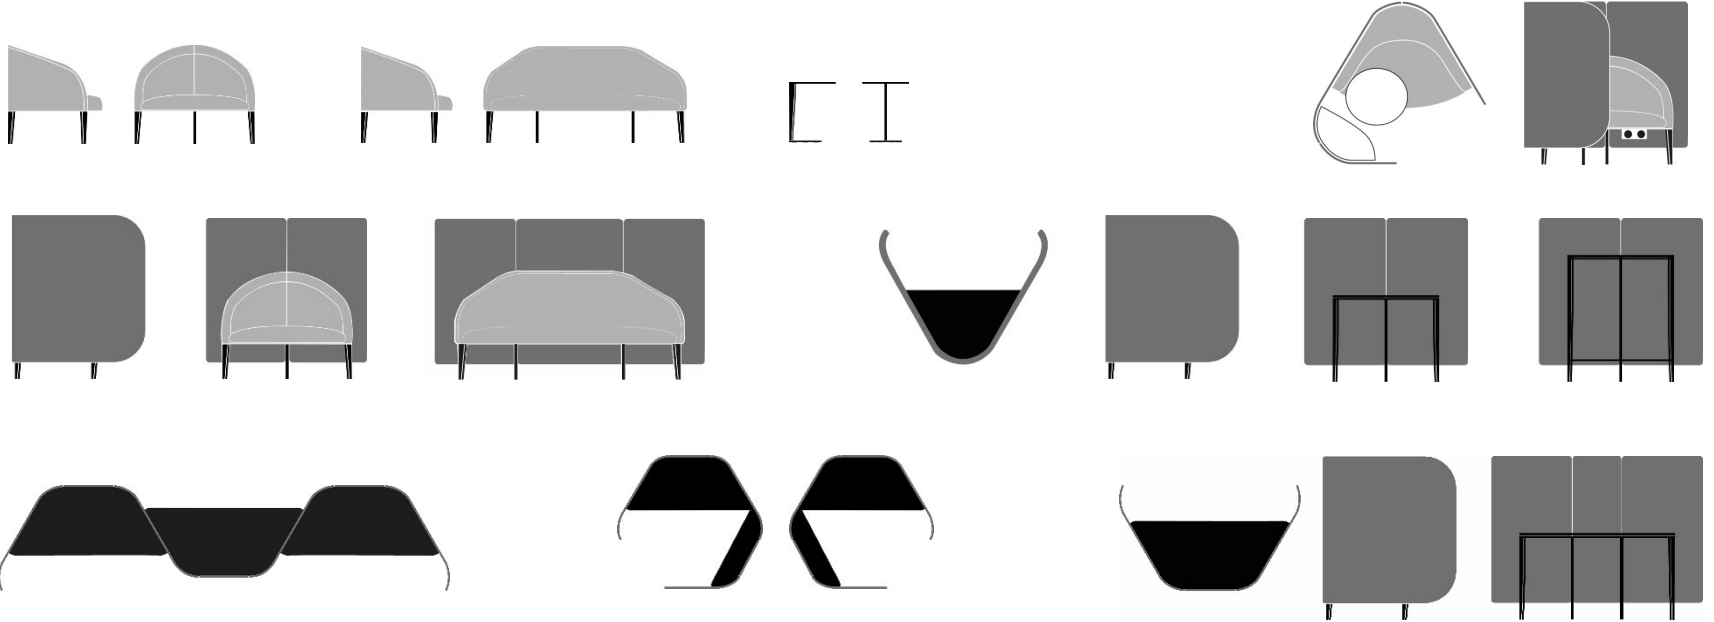

- Seating and workstations for the design of small retreats or workplaces in large rooms and waiting areas
- The 60° angle of the work and lounge cabins allows them to be arranged in exciting groups in the room, either linearly in alternating arrangement or also in a circle
- Benches create space for larger lounge landscapes
- Freely positionable side table is the ideal complement to the range
