Inspiration and detailed views

01

Product idea.

Customisable. Stackable. Incomparable.

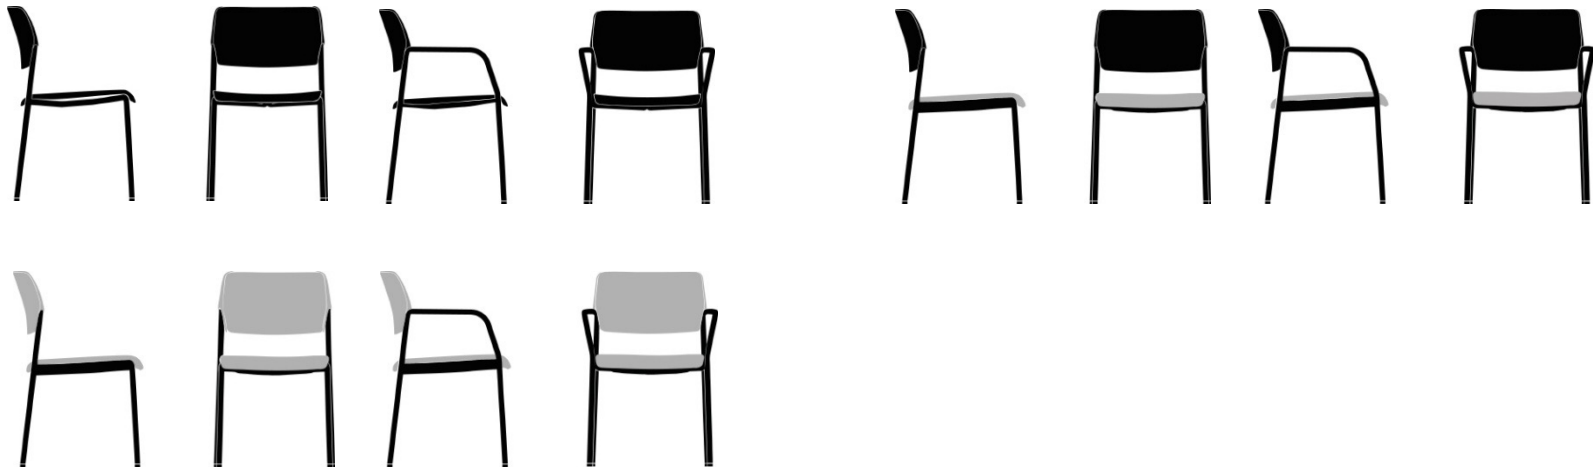

- Timeless design: The quintessential steel tube chair with invisible seamless back connection of seat and back in wood or plastic
- Real allrounder for cafeterias, restaurants, waiting rooms, hospitals, training and conference rooms
- High creative design freedom thanks to three harmonious colours for the plastic components as well as for the powder-coated frames. Further beech and oak as wood variants and various upholstery options are available
- Can be stacked up to five chairs high, easy to clean and disinfect
- Narrow armrest in plastic available in all magna colours
- Where high hygiene levels need to be achieved, in hospitals and the care sector
