Product idea.

# For more comfort.

The pads product family is complemented by a matching sofa programme. The cosy pads sofa lowers stress levels and increases comfort. Eleven modules form the perfect sofa - at a comfortable lounge seat height and with the best springing. Corner elements, side modules, long chairs and intermediate cushions can be put together as desired and needed.

**Modular sofa landscape:** for central zones and co-working spaces, lounges, waiting and educational areas as well as your own home.

# Every element represents attention to detail.

All upholstery elements are unified by a **characteristic and circumferential zigzag seam**. As a central design element, it not only provides a consistent link, but also represents Brunner's customary passion for detail.

**The zigzag seam is available in eight different colours.**

# Play with colours and fabrics.

No matter which colour and fabric variety is chosen, monochrome and orderly or bright and varied, pads are always an eye-catching feature.

When it comes to the design of the upholstery elements, panels and cushions, we offer a varied selection of fabrics with rich textures and sleek surfaces that expertly emphasise the dimensions of pads furniture.

In addition to an attractive appearance, our fabrics also impress with their internal properties such as easy-care and sustainable materials. The majority of our fabrics are certified according to Öko-Tex Standard 100, the EU Ecolabel or Greenguard.

02

In detail.

# Custom cosiness.

Say hello to the 'deep' member of the pads family... The home-like pads sofa range welcomes guests at lounge seat height with pleasantly deep seats.

Once again, the design features geometric shapes, gently rounded corners and an all-round zigzag seam in a contrasting colour.

The eleven sofa modules can be combined with full flexibility in any number of ways. Optional additional panel trims are available for connecting the individual elements.

# Exceptional comfort.

Anyone that takes a seat here, is cushioned by super soft upholstery with intelligent supporting springs.

The interior of the pads sofa consists of high-quality, sturdy 'nosag' springs covered by upholstery with extra reinforcement.

For lovely and soft sitting comfort as well as an inviting, voluminous look. Smiley faces guaranteed!

**For added comfort:**  
soft feather cushions add the  
finishing touches.
