01

Product idea.

Fabulous appearance: hidden highlights.

- Sleek, dynamic design by table legs in diecast aluminium optionally chrome-plating or powder-coating
- Also with table legs made of high quality solid oak for more comfort
- For use in meetings, conferences, cafeterias and restaurants
- Table with single leg without underframe for small tabletops of various shapes and optional electrification
- Table with system legs and underframe for use in the conference area, for large table systems with exclusive electrification options and invisible cable management through recessed cable routing in the table feet as well slim, foldable cable duct in many sizes and tabletop shapes available
- Table top with slim CRK, ABS or BK edge
- Table top surface stained in HPL, walnut and oak
