cellular

Free space with edge and corners.

cellular

- Seating and workstations for the design of small retreats or workplaces in large rooms and waiting areas
- Versatile use of armchair and bench due to equipment with and without panel
- Benches create space for larger lounge landscapes
- Armchairs also available as individual cabins with beautifully integrated writing shelf and storage table
- The 60° angle of the work and lounge cabins allows them to be arranged in exciting groups in the room, either linearly in alternating arrangement or also in a circle
- Optional media integration and electrification round off the series

cellular

- Larger tables for use as a full workstation, either in the form of a single workstation or a combination of three

- Freely positionable side table is the ideal complement to the range

- Matching worktables in two heights complement the system with modular workspaces

- Thanks to the 60° angled construction of the work and lounging units, they can be set out in groups, lines or circles, making best use of available space

  Available as single workplaces with optional media cables or power cables

- Versatile products ideal for open-plan offices, dedicated zones in libraries, business lounges in hotels and so much more
