CARE

We have so many experts to thank for our expertise in the health and care sector, including designers, scientists and marketing professionals.

And yet the most important experts of all are our customers. Our furniture provides solutions to help them overcome their challenges.

BRUNNER

Who we are and what we do

PREMIUM FURNITURE PRODUCTION

brunner ::

“Brunner – this name represents a family-run company that is passionately devoted to producing contract furniture of exceptional quality and with impressive functionality.”

Helena and Rolf Brunner

Brunner Innovation Factory, Rheinau

All of our products are manufactured in Rheinau in Germany. Every year, some 500,000 chairs and 100,000 tables are produced at our factory.

We employ more than 500 members of staff around the world.

Philip and Dr Marc Brunner

Brunner is owned solely by the Brunner family.

Founders Helena and Rolf Brunner take a hands-on approach to running the company together with their sons Dr Marc and Philip Brunner.

FURNITURE SEGMENTS

brunner ::

CARE

Care furniture provides solutions for care needs – without needing too much care itself. Despite our focus on functionality, we never forget about our design standards here either.

OFFICE

Feel at home at work. In the office sector, we can deliver the perfect equipment for conference and seminar rooms, co-working and agile spaces, cafeterias and lounges.

PUBLIC SPACE

Furniture you can go public with. We provide functional furniture with a stunning design for large spaces, conference and meeting rooms, restaurants, cafeterias and lounges.

HIGH QUALITY STANDARDS WITH A SOLID BACKING

brunner ::

QUALITY MANAGEMENT

We work continually to improve our processes and, at the same time, focus on the careful use of resources.

Our quality management system is DIN EN ISO 9001 certified.

PROVEN SAFETY

Our products undergo thorough safety testing in line with DIN EN 16139.

None of our new products go into series production without being extensively tested on our machines first.

CRAFTSMANSHIP

Brunner quality requires manual work in many areas. It demands visual judgement, passion, experience and know-how.

SUSTAINABLE ACTIONS FOR SUSTAINABLE SUCCESS

brunner ::

ENVIRONMENTAL MANAGEMENT

Brunner is aware that nature is an irreplaceable supplier of raw materials.

Our DIN EN ISO 14001 certification demonstrates that we are committed to protecting our planet within our business operations.

SUSTAINABLE MATERIALS

We use environmentally friendly and recyclable materials to manufacture our furniture.

Brunner has been awarded PEFC certification. Our wood comes from local, ecological forestry sources.

SUSTAINABLE PRODUCTION PROCESSES

We use state-of-the-art technology, such as UV-hardening water-based varnish for wooden components:

Varnish waste is reduced to a minimum, excess varnish is collected and reintroduced into the loop after being reprocessed.

Since the varnish does not give off any fumes, there is no need to wait before using newly furnished rooms.

YOUR CHALLENGES – OUR
AREAS OF EXPERTISE

We provide custom-made solutions to respond to all requirements. We cater to the most stringent of hygiene standards. We pay close attention to ergonomics and functionality. We take no chances when it comes to safety and take preventative fire protection measures.

YOUR CHALLENGES

We never lose sight of the most challenging practical requirements when we are developing our furniture because your needs are what matters most.

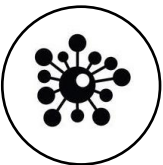

DEMENTIA

LIMITED MOBILITY

OBESITY

INFECTIONS

INCONTINENCE

HYGIENE

brunner ::

HYGIENIC FABRICS

Hygiene is a key factor in public welfare facilities – not least because those requiring care often suffer from incontinence.

Our seating ticks all of the boxes when it comes to hygiene requirements. Thanks to highly effective moisture protection. Thanks to fabrics that are extremely resistant to dirt and urine.

Many of our fabrics can be washed at up to 60°.

FUNCTIONAL FABRICS

Premium artificial leather that can be washed

Disinfectant-resistant

MICROFIBRES

Incredibly easy to clean

TEXTILES

A soft sensory experience

MESH

Flexible and breathable

HYGIENE

brunner ::

REMOVABLE COVERS

Meeting the highest of hygiene standards with an attractive design is not a contradiction for us.

We provide clean solutions for use in sensitive settings. Our products come with upholstery and covers that are easy to remove so that they can be changed and cleaned.

EFFECTIVE CONCEALMENT

Zips arranged in a cross layout to allow for quick removal

NO NEED FOR TOOLS

Clip so that no tools are needed to remove or attach covers

HYGIENE

ROBUST SURFACES

**Who knew hygiene
could be so stylish?
Our surfaces are
extremely robust and
resistant to
disinfectant.**

We also use beech as a type of wood with natural antibacterial properties – either in solid form or in an extremely sturdy bonded laminated wood variant.

WOOD

Surfaces sealed with
water-based varnish

Beech used thanks to its
antibacterial properties

NANOTEC BRUNNER

Resistance to scratches
and wear and tear

Antibacterial properties

HPL

Easy to clean

Extremely robust
material

METAL

Chromed surfaces that are easy to clean

Antibacterial powder coating

PLASTIC

Easy to clean

Extremely robust

brunner ::

HYGIENE

brunner ::

ANTIBACTERIAL PROTECTION

**Our HPL table tops
are now also
available with an
extra antibacterial
finish.**

The antibacterial treatment with Sanitized® silver ions kills 99.9% of bacteria within the space of 24 hours.

HPL POLYREY

Treated with Sanitized silver ions (not silver nanoparticles)

Stops bacteria from forming

Provides antibacterial protection for the furniture's entire lifespan

Easy to
clean

Heat resistant

Moisture and
disinfectant-
resistant

Defence
against mould,
mildew and
fungal decay

HYGIENE

brunner ::

SPECIAL DESIGNS

If it is hard for dirt to adhere, less cleaning is required.

Our designs are an absolute dream from a hygiene point of view, as they make it difficult for dirt to gather and simplify the cleaning process.

NO FRAMES

Simple handling

INTEGRATED SEAT UPHOLSTERY

No joints where dirt can gather

HIDDEN BOLT CONNECTIONS

Easy to clean

Improved design

ERGONOMICS AND FUNCTIONALITY

brunner ::

OPTIMUM COMFORT WHEN SITTING

Sick and elderly people often end up sitting down a lot and require a great deal of support from their furniture.

Our furniture takes care of ergonomics and safety – just look at our armrests with a knob as a standing aid and tables with space for a wheelchair underneath.

ARMRESTS WITH KNOB

Standing aid

Sitting aid

KNEE ROLL

Optimised blood circulation

Long stints of sitting made easier

UPHOLSTERED FRAME

Comfort when sitting

Homely feel

FRAME-FREE DESIGN

Plenty of legroom

Space for a wheelchair underneath

ERGONOMICS AND FUNCTIONALITY

brunner ::

CUSTOM-MADE SOLUTIONS

Our designs make everyday life that little bit easier. And our furniture blends ultimate comfort with breathtaking style in so many different ways.

Looking for strong models in an XXL? We can develop custom furniture that provides more room and increased stability for obese individuals.

STURDY STRUCTURES

Maximum load up to 180 or even 250 kg

HEAD AND LUMBAR PADDING

Comfort when sitting

RECESS IN BACK

Gentle swing

ADJUSTABLE RECLINING CHAIR

Gas spring allowing for continuous adjustment

ERGONOMICS AND FUNCTIONALITY

brunner ::

EASY HANDLING

Staff who work with patients in the care sector all day long are grateful for anything that makes their job a little easier.

And that's why we design lightweight chairs that can be handled with ease. They can even be stacked up if required.

LIGHTWEIGHT MATERIALS

Lightweight thanks to plastic shells and more

OPTION TO STACK

Low stacking height thanks to flat metal frames and more

BACKREST BAR

Easier handling

CASTERS

Option for one person to push furniture with ease

Space-saving storage solution

FIRE PROTECTION

brunner ::

TESTED MATERIALS

We even only use materials that comply with the minimum fire protection regulations for our furniture without upholstery.

This ensures compliance with the DIN66084 P-a or P-b fire protection standard applicable to contract furniture without upholstery.

Bases made from non-flammable steel tube or aluminium

Tables with premium, heat-resistant HPL carrier plates as per **EN 438**, with flame-retardant table tops available on request

Flame-retardant varnish for our wooden surfaces as per **DIN 4102 B1**

We also provide **seating made entirely** from non-flammable materials in line with the most stringent of requirements.

FIRE PROTECTION

CUSTOM SOLUTIONS

Fire protection considerations are just as crucial for chairs with upholstery. We have a wide range of fabrics that are certified in line with DIN 4102-B1.

How does our furniture perform?

STANDARD

- Cover fabric that complies with EN1021 1+2 (not fabric with specific fire protection properties)
- **P-c classification (low)**
Cigarette test in accordance with **EN 1021, part 1**

STANDARD PLUS

- Flame-retardant cover fabric that complies with DIN 4102 B1
- Standard upholstery foam
- **P-b classification (medium)**
Match test in accordance with **EN 1021, part 2**

EXTRA

- Flame-retardant cover fabric that complies with DIN 4102 B1
- Upholstery foam to CMHR* standard
- **P-b classification (medium) & BS 5852 Crib 5**
Fire protection test **BS 5852** with Crib 5 ignition source

ULTRA

- Flame-retardant cover fabric that complies with DIN 4102 B1
- Upholstery foam to CMHR* standard
- Additional padding made from non-flammable fire protection fabric
- **P-a classification (high)**
Paper cushion test in accordance with **DIN 54341**
