DESIGN NEWS

07 | PADS

- Expansion of the modular seating landscape to include a cube with seat height 48 cm
- Ten upholstery elements in various shapes, colours and fabrics
- Characteristic zigzag seam in eight colours as the key design element
- Numerous combination possibilities together with matching cushions, panels and a side table that can be electrified
- Ideal for lounge and waiting areas, co-working spaces, libraries and many other public areas

Everything goes together here.

# crona light

Archirivolto

- Expansion of the crona light range to include a new soft upholstery
- Comfy and cosy full upholstery for a soft cushioned look all round
- Shell-shaped body with or without armrests
- Available with a sled-base, spider-leg and central-foot frame, with a four-legged frame in wood or steel and as a version with casters
- Steel frames chromed or powder-coated
- Suitable for use in cafeterias, restaurants, conference rooms and hospitals alike

DESIGN NEWS

10 | CRONA LIGHT BAR

## On top of the world on two levels.

- Lightweight bar stools with two available seat heights (77 cm and 64 cm)
- New, agile seat height (64 cm) for additional uses: in co-working areas, at breakfast bars in the home or workplace and at stylish information desks
- Seven harmonious colours allow incredible freedom of design
- Available with sled-base frames or stackable four-legged frames
- Chromed frame and foot-rest, with an optional coating that matches the seat shell
- Also with a wooden frame for uniting homeliness with the advantages of hygiene and easy handling

# crona light lounge

Archirivolto

## Ready to relax?

- Sustainable reinterpretation of the crona light lounge range
- Seat shell made from high-quality, 100 % processed recycled plastic in agave
- Additional wide range of colours in the standard plastic version: lava, stone, aqua and black cherry
- Optional with loose seat cushion, a cosy soft upholstery across the entire inside of the shell or the entire seat shell for a relaxed and comfortable look and feel
- Available with a sled-base or central base as well as a four-leg frame in wood or steel
- Steel frames chromed or powder-coated
- For use in cafeterias, restaurants, lounge and waiting areas
- Various combination possibilities within the crona collection

# hero plus

Roland Schmidt Design

- Expansion of the hero plus range to include a version with stackable sled-base
- With and without armrests
- Easy handling thanks to the light weight
- High-quality mesh covering: perfectly made for longer sitting as it is breathable, elastic but consistent in form, easy-care, UV-resistant
- The mesh material adapts to suit any body shape
- Mesh material also available in a flame retardant version (B1), several colours available
- Circumferential, robust plastic frame reinforced with fiberglass forms an ergonomic knee roll and grip or carrying bar in the back

Also in use as an agile swivel chair.

- Also available as swivel chair with or without armrests
- Plastic frame in black or stone
- With proven rocking mechanism and continuous height adjustment

- New feature for multi-purpose chair
- Optional armrests that can be removed using the easy-access release lever under the seat (no tools required)
- Multitude of placement variants: chair to chair, chair with armrests to chair, chair with armrests to chair with armrests or bench (with armrests outside)
- Optional: panic-proof row connection
- Can be stored in stacks of up to twenty chairs, with a mixture of chairs with and without armrest in each stack

# first place

Brunner Design Team

- New version of the innovative frame linking chair with plastic shell
- Ergonomically shaped shell with straight back upper part
- Optionally with and without armrests
- Linking of chairs and armchair possible
- Different types of upholstery
- Ideal for large-scale seating
- Optionally available with contactless numbering system numera evo

# cellular

Archirivolto

- Expansion of the lounge system to include a comfy single cabin
- Mini think tank includes an upholstered easy chair and panel complete with writing tablet, side table and media integration
- Illusion of floating thanks to the slender, powder-coated steel tube frame
- The perfect addition to the cellular family including versatile seating and workstation solutions for large rooms and waiting areas
- The 60° angle of the work and lounge cabins allows them to be arranged in exciting groups in the room, either linearly in alternating arrangement or also in a circle

# 2000

Brunner Design Team

- Sturdy cheek standing table with timeless elegance
- Top surface HPL or oak veneer
- Available in two heights
- Larger table formats also possible
- Corner joints optionally butt-jointed or mitred glued
- With stainless steel footrest
- Mobile thanks to optional sliding casters integrated on one side
- For use in cafeterias as well as in office, lounge and waiting areas
