Slender and comfortable:

Shapely Models for Cafeteria and Lounge

Design: Wolfgang C.R. Mezger

fina club:

The elegant club armchair – puristic and reduced to the essentials.

A comfortable fully upholstered shell and solid oak wood foot elements make fina club an elegant companion for particularly tasteful ambiances. This club armchair is compelling thanks to its clear and reduced language of forms and its high level of seating comfort. For the fully upholstered shell, there's a choice of premium leather or fabric covers. The foot elements may be stained in different hues. Thus, they adapt to any modern design concept. Matching lounge tables are a perfect complement to this series. Design: Wolfgang C.R. Mezger

- Elegant fully upholstered shell
- With premium leather or fabric covers
- Solid oak wood foot elements
- Very high level of seating comfort
- Matching wooden tables available

Areas of application

cafeteria

fina club is a top-class club armchair. It enhances any restaurant, cafeteria or hotel lobby.

Overview of models

Elegant and inviting –
this club chair
emphasizes the design
concept of Hotel 47° in
Constance with its warm
earth hues.

Elegant and comfortable.
The ideal club chair for any
tasteful ambience.

The fina club chair has an elegant fully upholstered shell featuring a fabric or leather cover. Its solid oak wood legs can optionally be stained in different colours. Its puristic design is reduced to the essentials. This makes it the ideal club chair to blend into any tasteful and modern ambience. Whether it's in restaurants, hotels, cafés or top-class reception areas: the fina club armchair complements any modern interior with its clear design language.

6861/A

A truly noble piece. fina club – the table.

The premium design quality is obvious even at first glance. This wooden table is immediately exciting, thanks to its shape, material and workmanship. The strikingly oblique angle of its legs and their slightly conical profile with the pronounced outward curvature clearly show the design affinity with seating furniture of the fina wood and fina club series. The apparent contrast between the stable legs and the delicate table top edges deliberately creates an unusually exciting look. As well as unexpected stability – for table top and legs are firmly connected by a special metal bracket.

Upon request, the table tops get treated with a special nano-technology finish, resulting in an extravagant, matt lacquer look. On top of this, such a surface is a guarantor of longevity – even when subjected to intense wear and tear. For it is not only resistant to abrasion and light, but also water repellent and easy to clean.

A unique characteristic feature of this table is the specially rounded table top edge made of bevelled MDF – the fina club edge (FCK). It brings about this unmistakable lightness of the table tops which – depending on the application purpose – are available in different formats and sizes.

fina wood:

Apparent contrasts combine to form an interesting entity.

A shapely oak wood frame providing an exciting contrast to the high-quality fina plastic shell – that's fina wood. This stackable four-legged chair is compelling thanks to its fluent and elegant lines made possible by innovative laminated wood technology. fina wood is also available with a wooden shell as well as with or without armrests. For even more seating comfort, there's a choice of several upholstery variants.

Design: Wolfgang C.R. Mezger

- Complementing the fina series
- Innovative laminated wood technology
- With or without armrests
- High-quality plastic or wood shell
- Different upholstery variants
- Exciting design
- Stackable
- Matching bar stool

Areas of application

cafeteria

When fina wood is deployed in gastronomy, it will convince guests and service personnel alike – thanks to its elegant comfort and easy-to-clean surfaces. It is lightweight, yet stable.

universal

fina wood also strikes a fine figure in any common room. It is just perfect for a discerning ambience. Even in a nursing home. For this stylish chair is both cosy and easy-to-clean.

Overview of models

The perfect combination of high-quality plastic and classy wrought wood.

The particular charm of fina wood consists in its combining the high-quality fina plastic shell with a beautifully shaped oak wood frame. Thus fina wood perfectly complements the versatile fina series. A further distinctive feature is the innovative laminated wood technology with its continuous oak veneer layers, giving the impression of solid wood. This technology allows extremely slim cross-sections. The shaped wood from domestic forestry is splinter-free, robust, and thanks to its smooth surface easy to clean. The chair is lightweight yet sturdy.

Thanks to invisible
connections,
nothing disturbs
the fluent lines of
the wood frames.

6808/A

The shell is perfectly embedded in the rib frame. This makes the chair look good from all sides. The shell is available as a noble-looking plastic version or made of oak wood, with a finish of several matt lacquered stained hues. In addition, the wooden shell is available in a selection of different upholstery variants that provide even more seating comfort. With or without armrests – both design versions are stackable, even alternatingly.

Different upholstery variants make fina wood even more comfortable.

fina bar:

The perfect complement for any cafeteria.

fina bar with its puristic design is the ideal companion for relaxed communication, making it perfect for any cafeteria. The series is convincing thanks to its felicitous combination of a high-quality plastic shell with a shapely oak wood frame. But fina bar is able to do even more: The bar stool is also available with a sled-base frame or a metal four-legged frame. For particular seating comfort, the plastic shell is also available in a fully upholstered version. It's just always a perfect match for the fina series.

Design: Wolfgang C.R. Mezger

- Bar stools matching the fina series
- Metal sled-base frame or four-legged frame made of solid wood or metal
- Puristic design
- Seat/seat shell available in different versions

Areas of application

cafeteria

Thanks to its puristic design and the many frame variants, fina bar fits in any cafeteria.

Overview of models

The robust and puristic cafeteria complement.

Variety – that's a hallmark of the fina series. Matching the fina models equipped with a plastic shell, there's now also a bar stool. Its significant design feature is its puristic plastic shell. Thanks to the three frame variants, it fits in a wide range of design concepts. The four-legged solid oak wood frame has a noble look, offering an interesting contrast to the robust plastic shell. This variant is the perfect companion for fina wood and many other wood frame series.

6801

6811

In addition to the puristic plastic shell, fina bar is also available in a fully upholstered version – for special seating comfort.

The delicate stackable sled-base frame made of chromed round steel comes across as light and reduced to the essentials. Less is more: the sled-base frame's purist design has the shell seemingly float in mid-air. The shell is made of easy-to-clean plastic and available in three colours. With a fully upholstered shell, the bar stool is particularly comfortable.

Monochrome plastic shell

white

stone

lava

Delicate and reduced to the essentials: the sled-base frame made of chromed round steel tubes.

6451

6461

fina bar is also available with a four-legged frame made of round steel tube and a shaped beech wood shell tapered towards the edges. The frame is flared towards the feet to ensure a high degree of stability. The shell bolt connections are invisible, with a central flat steel shell retainer. Optionally, the shell is also available with oak veneer finish, as well as with different upholstery variants, e.g. seat liner or through liner.

Perfect combination: fina bar featuring a shaped beech wood shell and oak cover veneer with matte lacquer finish, with a stand-up table from the fina conference series.

fina lounge:

The easy chair for relaxed waiting – slim and comfortable.

Perfectly suited for the lounge area: fina lounge, an easy chair sporting the typically light fina design – surprising with extraordinary seating comfort. The fully upholstered shell is wider than usual, yet comes across as slim, harmonising excellently with the conference chairs of the finasoft series. In order to provide even more comfort, the easy chair can optionally be equipped with an automatic return mechanism. Matching side tables are available, also with an aluminium base and round table tops in different versions.

Design: Wolfgang C.R. Mezger

- Comfortable lounge armchair with an extra-wide seat, also available as a high-back version
- Very slim silhouette
- Extraordinary seating comfort
- Premium look and feel thanks to high-quality upholstery and aluminium foot
- Optionally equipped with automatic return mechanism
- Also available with fully upholstered armrests
- Also available: matching stool as foot rest or piece of seating furniture in its own right
- Complement: matching side tables

Areas of application

lounge

Extraordinarily pleasant seating comfort: fina lounge is perfectly suited for relaxed waiting.

Overview of models

Relaxation for staff and guests.

fina lounge offers a wide range of design options – making for an individually equipped lounge area. The slender easy chair is also available with closed, fully upholstered armrests, while the ergonomic, fully upholstered shell in all its versions ensures top seating comfort. Whether on its own, as a group, or combined with matching side tables: fina lounge creates the right atmosphere for relaxed waiting and communicating.

Matching stool as foot rest or piece of seating furniture in its own right

Side tables:
with round table
tops – in a choice
of glass or wood.
Wood table top
surface: HPL or oak
veneer.

Made to order:
fina lounge is
optionally available
also as a comfortable
high-back version,
with automatic
return mechanism,
and in all colours and
materials of the
standard range.

Please Note

Please consult the current price list for details, prices and terms of business. Technical modifications, errors and colour variations reserved. Some models are depicted as special editions that are subject to an extra charge.

Wood is a natural product. For our furniture series we use only high-quality wood from sustainable forest management. Despite carefully selecting the wood, colour variations may occur. Differences in colour and structure are not a valid return reason but an expression of the individual character of wooden furniture.
