Conference swivel chairs Model series "ray conference"
with armrests

Seat and backrest shell made of plastic or plywood, upholstered and covered with fabric. Central connecting point made of die-cast aluminum with integrated rocking mechanism (RKA). Optional in fixed version without rocking mechanism. Armrests made of die-cast aluminum, connected to the backrest, with connection to rotary mechanism. Rotary mechanism optionally with automatic function. Backrest in three different versions. Standard height without or with (three inserted) upholstery pads or as a high-back chair with (four inserted) upholstery pads. Four-star base made of aluminum with load-dependent braked double swivel castors, type "H" or "W", Ø 65 mm or with glides.

Model overview:

Model no.:	9252	Standard height without upholstery pads
Model no.:	9264	Standard height with three inserted upholstery pads
Model no.:	9262	High-back chair with four inserted upholstery pads

Conference swivel chairs Model series "ray" with armrests for a user weight of up to 130 kg

Seat and backrest shell made of plastic or beech plywood, upholstered and covered with fabric. Height-adjustable with gas spring from Stabylus (STAB-O-MAT, DIN EN 16955, 4D) with integrated rocking mechanism with locking in the zero position. V-shaped seat support with direct connection to the die-cast aluminum armrests (optionally with leather upholstery), connected to the backrest, with connection to the swivel mechanism.

Swivel mechanism optional with return function (fixed height with glides). Backrest in three different versions. Standard height without or with (three inserted) upholstery pads or as a high-back chair with (four inserted) upholstery pads. Five-star base made of aluminum with load-dependent braked ring double swivel castors, type "H" or "W", Ø 65 mm or with glides.
